Dear Clark County School District Community,

The Clark County School District cares about the safety of every child in our care. We know that maximizing safety on all Clark County School District campuses ensures student success. We are engaging parents/guardians as critical partners in communicating behavioral expectations to all students. Prior to registration for the upcoming school year, we anticipate that you will discuss the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct* and review the material herein during conversations at home. After doing so, during registration in Infinite Campus (IC) we ask you to please check the acknowledgement box or submit the Acknowledgement of Receipt and Review Signature Form to your child's school.

We know that students must be in school to optimize learning and succeed in attaining educational goals. Excluding serious disciplinary infractions, every effort will be made to minimize educational disruptions or exclusionary practices for students not following the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*. Our priority is to use positive behavior supports, when possible, to encourage appropriate student behavior. When this is not an option, we are committed to equitable and reasonable consequences to foster improvement in student behavior.

Our goal each day is to ensure students feel safe while attending any Clark County School District school. It should be noted that students possessing weapons, specifically firearms or other dangerous weapons, will be immediately referred to law enforcement. We will not tolerate jeopardizing the safety of our students or the Clark County School District community. More about this policy and the consequences for weapons infractions can be found in the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*.

Additionally, along with the safety of our students, we are committed to the safety of our employees. Student behaviors causing harm to our employees may result in expulsion proceedings and/or law enforcement involvement. Additional information about conduct expected in the classroom, on school grounds, school events, or in distance education can all be found in the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*.

Thank you for your contributions to assist the Clark County School District with strengthening safety for all. Again, after you have reviewed this document, we ask you to check the acknowledgement box in IC during registration or submit the Acknowledgement of Receipt and Review Signature Form to your child's school. We stand together to create safe and successful schools.

In Partnership,
Dr. Jesus F. Jara
Superintendent of Schools

PURPOSE OF THE DOCUMENT

The purpose of this document is to familiarize stakeholders with specific behavior incidents and the potential consequences for student behavior violations. Additionally, all employees of the Clark County School District will utilize the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct* while determining disciplinary outcomes for students. This document contains all of the individual discipline incident codes with the definitions, Infinite Campus/student accounting code, potential discipline resolution(s), related notes, and resources, if applicable, associated with each behavior incident.

SAMPLE

Definition: This area will provide the meaning of each behavior incident.	
Infinite Campus Code: XYZ	Staff/Administrative Managed
Resolutions	
Minor • Listing of potential resolutions utilized by staff	Major • Listing of potential disciplinary outcomes for students
Notes: • Specific notes detailing information related to the behavior incident. Additionally, incident notes assist with what additional requirements may relate to the behavior incident.	
Resources • Additional supporting information from Nevada Revised Statutes (NRS) or other resources in relationship to the behavior incident.	

INCIDENT TYPE DEFINITIONS

In an effort to optimize equitable application of disciplinary consequences for students, it is important to differentiate and define all types of disciplinary incidents. The behavior incident sample table above includes terminology explaining if the behavior incident is staff-managed, office-managed, or administrative-managed referring to the personnel/employees directly addressing the behavior incident.

MINOR BEHAVIOR INCIDENTS Minor Behavior Incidents are staff-managed behavior incidents that are addressed by school personnel such as a classroom teacher, when applicable. Minor Behavior Incidents violate school or classroom rules or procedures.
MAJOR BEHAVIOR INCIDENTS Major Behavior Incidents are office-managed behavior incidents that are addressed by staff and/or administration. They are severe in nature or are habitually repeated. Major Behavior Incidents that violate Clark County School District Policies and Regulations, impact student or staff safety, or cause property damage may be subject to law enforcement involvement. Major Behavior Incidents include discretionary expellable offenses.
URGENT BEHAVIOR INCIDENTS Urgent Behavior Incidents are administrative-managed behavior incidents that are addressed by administration only with an immediate response. Urgent Behavior Incidents are identified as expellable offenses per NRS or Clark County School District Policies and Regulations.

DISCIPLINE RESOLUTION CRITERIA

In addition to the type of behavior incidents, educators use a criteria to determine the level of consequence being considered for individual students which may vary in range from Minor to Major. The criteria include sections and considerations for Minor Behavior Incidents, Minor to Major Behavior Incidents, Major Behavior Incidents, and Urgent Behavior Incidents. The application of these criteria are useful for all incidents contained in the Behavior Incident Index located on page 10. Educators will analyze the criteria in connection to an individual behavior incident to ensure safety, optimize equitable application related to Behavior Incident Resolutions, and limit exclusionary discipline practices that cause missed school opportunities for students. The discipline resolution criteria are below:

Minor

The behavior incident resolution determinations within the Minor Resolutions involves an analysis of repeated incidents or violations of the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct* on CCSD property or at any district/school-sponsored event or activity. Multiple Minor Resolutions may be required to address student behavior incident violations in a proactive manner.

Questions to consider prior to the issuance of Resolutions in the Minor Category:

- *Is the incident isolated to the classroom and easily managed by staff through redirection methods and intervention?*
- *Can student reflection be promoted to ensure future behavior incidents do not occur?*
- *Will the behavior incident create a “teachable moment” between educators and students?*
- *Can the re-engagement of the student to learning happen in the classroom with immediate education professional intervention?*

Minor to Major

The behavior incident resolution determinations within the Minor to Major Resolutions involves an analysis of repeated incidents or violations of the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct* that may create safety issues for other students, employees, or the individual student initiating the behavior incident.

Questions to consider prior to the issuance of Resolutions in the Minor or Minor to Major Category:

- *Is the educational professional working with the student able to clearly identify, recognize, and prevent unacceptable behavior occurring in the classroom?*
- *Was the Suspension Guidance for Students Under Age 11 criteria implemented prior to Suspension With Instruction (SWI) for the student under age 11?*
- *Can the educational professional working closest with the student promote self-discipline of the individual student while redirecting the minor infraction to ensure that classroom instruction for all students continues?*
- *Has a counselor or other school professional attempted to determine the antecedent of the behavior(s) creating a violation of the Clark County School District Pre-Kindergarten–12 Student Code of Conduct?*
- *How did the student react to positive redirection when violation(s) of the Clark County School District Pre-Kindergarten–12 Student Code of Conduct occurred?*
- *Has the parent/guardian been informed of previous Minor Behavior Incidents? What evidence exists regarding telephone call logs to parents/guardians, meetings, and electronic or written communication to the student's parents/guardians? Has reasonable effort occurred to contact the parent/guardian?*
- *Were any non-exclusionary disciplinary techniques provided to the student(s) to ensure compliance with the Clark County School District Pre-Kindergarten–12 Student Code of Conduct prior to a Major Discipline Resolution?*
- *Was an educational professional able to distinguish between Minor and Major offenses, and account for first time versus repeated offenses?*
- *Can the individual student accept responsibility with a lesser consequence and articulate the harm caused by a behavior incident violation?*
- *After reviewing the discipline referral, is there a more appropriate solution to serve this student and retract the discipline referral?*
- *If removal from school is an appropriate and allowable resolution, how will the school provide Suspension With Instruction (SWI) to ensure that the student is offered instruction, has real-time access to an instructor, and the suspension does not impact chronic absenteeism?*

Major

The consequence level within the Major Resolutions involves frequency of occurrence related to disciplinary incident(s) and behavior incident severity determinations being made after an analysis of historical school counseling and other proactive efforts, and offered wraparound interventions provided to the student at the school.

Questions to consider prior to the issuance of Resolutions in the Major Category:

- *Could a less punitive discipline resolution within the Major Discipline Resolution change the student's behavior in a positive way? Are community service efforts on the school campus available for the student to learn from violations of the Clark County School District Pre-Kindergarten–12 Student Code of Conduct (i.e., school cleanup)?*
- *Were any restorative practices/techniques provided to the student(s) to hold them accountable and assist the student in helping them correct their behavior?*
- *Has parent/guardian contact been ongoing in relationship to previous violations of the Clark County School District Pre-Kindergarten–12 Student Code of Conduct? What documentation exists showing the ongoing communication efforts with parents/guardians? Has reasonable effort occurred to contact parents/guardians?*
- *Did the behavior incident create a substantial disruption on the campus? Did the incident jeopardize the safety/wellbeing of others or the individual student involved in creating the behavior incident?*
- *Based on the behavior incident violation, does the discipline determination impact the culture and climate of the school related to adherence to school rules and expectations?*
- *If removal from school is an appropriate and allowable resolution, in lieu of Suspension, is Suspension With Instruction (SWI) being offered to provide the student with daily, real-time instruction and interaction with licensed personnel?*

In relation to Major Behavior Incidents, the following parameters should be incorporated.

Exclusionary Discipline Review

- *First-level Required Parent Conference (RPC) is set at a one (1) day maximum. Prior to any first-level RPC, previous interventions must include:*
 - *Parent/Guardian Notification*
- *Second-level RPC for recurring discipline is set at a two (2) day maximum. Prior to any second-level RPC, previous interventions must include:*
 - *Parent/Guardian Notification*
 - *Specialized Instructional Support Personnel (SISP) Referral*
- *First-level suspension is set at a two (2) day maximum. Prior to any suspension, previous interventions must include:*
 - *Parent/Guardian Notification*
 - *Review the appeal process rights with Parent/Guardian*
 - *SISP Referral or Harbor Referral*
 - *RPC (two (2) day maximum)*
- *Subsequent suspensions or second-level suspensions are set at two (2) and/or five (5) days depending on behavior incident.*
- *Prior to any recommendation for Academic Center or Alternative Educational Placement (AEP) previous interventions must include:*
 - *Parent/Guardian Notification*
 - *SISP Referral or Harbor Referral*

Urgent

Urgent Behavior Incidents may lead to expulsion recommendations unless the incident involves weapons as defined in Nevada Revised Statutes (NRS 392.466).

3. Not later than thirty (30) days after receiving the disciplinary decision, the parent/guardian may submit a complaint to the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education.

B. Employee Discipline

1. The provisions of the discrimination based on race, bullying, or cyberbullying law do not apply to a violation committed by an employee of a school or District against another employee of a school or District. However, if applicable, the District will comply with Regulation 4110, Employment Discrimination, Harassment, and Sexual Harassment: All Employees; administrative procedures; any applicable collective bargaining agreement; and other applicable laws. Also refer to District Policy 5139, Anti-Racism, Equity, and Inclusion.
2. Any District employee who violates this discrimination based on race, bullying, or cyberbullying policy shall be subject to discipline, if appropriate.
3. An administrator, including the principal or designee of a school, or assigned to a central services, department, or division:
 - a. Shall be disciplined by written admonishment, demotion, suspension, dismissal, or refusal to re-employ for knowingly and willfully failing to comply with the provisions of NRS 388.1351.
 - b. May be demoted, suspended, dismissed, or not re-employed for knowingly and willfully failing to comply with the provisions of NRS 388.1351 or an intentional failure to report a violation of NRS 388.135 if the administrator witnessed the violation.
4. An educator may be suspended, dismissed, or not re-employed if knowingly and willfully failing to comply with the provisions of NRS 388.1351 or an intentional failure to report a violation of NRS 388.135 if the educator witnessed the violation.
5. If an employee is the holder of a license issued pursuant to NRS 391.320, the Superintendent of Schools may recommend to the Board of School Trustees that the Board of School Trustees submit a recommendation to the State Board of Education for the suspension or revocation of the license for knowingly and willfully failing to comply with the provisions of NRS 388.1351.

VII. Appeal Process

A. Appeal Process for the Alleged Offender

1. The parent/guardian of the alleged offender has ten (10) school days to appeal the outcome of the bullying investigation and/or appeal the disciplinary decision the principal or designee made against the student as a result of the violation.
2. If the assistant principal or student success coordinator issued the initial student discipline, the parent/guardian may appeal to the principal. In these cases, there is no right to another appeal with the region superintendent/school associate superintendent.
3. If the principal issued the initial student discipline, then the parent/guardian may appeal to the region superintendent/school associate superintendent assigned to that school.
4. Upon receiving an appeal request, the principal/school associate superintendent/region superintendent (as applicable) must contact or meet with the parent/guardian to hear their concern(s) within five (5) school days from the date of the request. Within ten (10) school days following the contact/meeting, the principal/school associate superintendent/region superintendent must inform the parent/guardian of his/her decision: uphold, modify, or rescind. Extensions of this timeline may be made by the District if needed, and parents/guardians will be notified of any extension via telephone, email, or in person.
5. For discipline that does not result in a recommendation for behavior school or expulsion, the decision of the principal/school associate superintendent/region superintendent (as applicable) is the final level of appeal at the District.
6. If a student is referred to a behavior school or for expulsion, the same process outlined above should occur; however, the process will continue through the appeal process administered by the Education Services Division (ESD). After the ESD appeal is complete, the District's decision is final.
7. Not later than thirty (30) days after receiving notification of the final decision of the District, the parent/guardian may submit a complaint/appeal to the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education concerning the outcome of the appeal or an alleged violation of the discrimination based on race, bullying, or cyberbullying laws. The procedures for submitting a complaint/appeal are set forth in Chapter 388 of the Nevada Administrative Code (NAC), a copy of which is distributed annually to all parents/guardians of students enrolled in the District.
8. This appeal process applies to school issued discrimination based on race, bullying, or cyberbullying disciplinary action only. It does not apply to any citation or action imposed by CCSD Police Services or local law enforcement when the conduct also involves a criminal offense.

B. Appeal Process for the Alleged Victim

1. The parent/guardian of the alleged victim may appeal a determination that the discrimination based on race, bullying, or cyberbullying was "unsubstantiated" within ten (10) school days of the issuance of the initial determination contained in the discrimination based on race, bullying, or cyberbullying Written Report.
2. The level of discipline imposed/not imposed is not subject to appeal by the victim at the local level given that the District cannot disclose those details to the parent/guardian of the alleged victim under FERPA.
3. If the assistant principal or student success coordinator issued the initial finding/decision contained in the discrimination based on race, bullying, or cyberbullying Written Report, the parent/guardian of the alleged victim may appeal to the principal. In these cases, there is no right to another appeal with the school associate superintendent/region superintendent.
4. If the principal issued the initial finding/decision contained in the discrimination based on race, bullying, or cyberbullying Written Report, the parent/guardian of the alleged victim may appeal to the school associate superintendent/region superintendent.
5. Upon receiving an appeal request, the principal/school associate superintendent/region superintendent (as applicable) must contact or meet with the parent/guardian to hear their concern(s) within five (5) school days from the date of the request. Within ten (10) school days following the contact/meeting, the principal/school associate superintendent/region superintendent must inform the parent/guardian of his/her decision: uphold, modify, or rescind. Extensions of this timeline may be made by the District, if needed, and parents/guardians will be notified of any extension via telephone, email, or in person.
6. The decision of the principal/school associate superintendent/region superintendent (as applicable) constitutes the final decision at the district level.
7. Not later than thirty (30) days after receiving notification of the final decision of the District, the parent/guardian may submit a complaint/appeal to the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education concerning the outcome of the appeal or an alleged violation of the discrimination based on race, bullying, or cyberbullying laws. The procedures for submitting a complaint/appeal are set forth in NAC Chapter 388, a copy of which is distributed annually to all parents/guardians of students enrolled in the District.

- C. When a staff member is involved in the alleged discrimination based on race, bullying, or cyberbullying of a student, the District will follow the bullying process. However, there are other labor and employment law implications. These procedures are addressed in separate administrative guidelines.

VIII. School Safety Team

- A. To the extent practicable, the principal of each school shall develop a school safety team to help develop, foster, and maintain a school environment which is free from discrimination based on race, bullying, or cyberbullying. The school safety team shall:
1. Include a diverse group of employees representative of the school's demographics, including the school principal or designee and the following persons appointed by the principal: a school counselor; at least one educator from the school; at least one parent/guardian of a student enrolled in the school; and any other person appointed by the principal. The principal has discretion to limit the number of additional persons appointed to the safety team so that it does not become too large or unmanageable.
 2. Meet at least two (2) times each year.
 3. Identify and address patterns of discrimination based on race, bullying, or cyberbullying.

4. Assist the principal in reviewing and strengthening school policies to prevent and address discrimination based on race, bullying, or cyberbullying.
 5. To the extent practicable, work with members of the community with expertise in cultural competency.
 6. Assist the principal in providing information to school employees, students, and parents/guardians about methods to address discrimination based on race, bullying, or cyberbullying.
 7. Not have access to personally identifiable student information related to discrimination based on race, bullying, or cyberbullying, unless a member of the school safety team is a school official with a legitimate educational interest, and then only that particular member may have access.
 8. Participate in District professional learning sessions regarding discrimination based on race, bullying, or cyberbullying, to the extent that funds are available.
- B. The work of the school safety team must be outlined in each school's annual School Performance Plan which is conveyed to the Nevada Department of Education.

IX. Professional Learning

The District will provide for the appropriate professional learning of all administrators, principals, educators, and other employees of the District as prescribed by this policy.

- A. The District shall develop methods of discussing this policy with staff in order to help prevent discrimination based on race, bullying, or cyberbullying. This will also include methods for addressing the rights and needs of persons with diverse gender identities or expressions as it pertains to the prevention of discrimination based on race, bullying, or cyberbullying.
- B. In addition to informing employees and students about the policy, the District shall develop a plan, including requirements and procedures, to assure that the following professional learning be provided to all administrators, principals, educators, support professionals, and other personnel employed by the Board of School Trustees of the District:
 1. Awareness concerning the various types of discrimination based on race, bullying, or cyberbullying; how the discrimination based on race, bullying, or cyberbullying manifests itself; and the devastating emotional and educational consequences of discrimination based on race, bullying, or cyberbullying.
 2. Appropriate methods to facilitate restorative disciplinary practices and positive human relations without the use of discrimination based on race, bullying, or cyberbullying so that students and employees may realize their full academic and personal potential.
 3. Methods to prevent, identify, and report incidents of discrimination based on race, bullying, or cyberbullying.
 4. Needs of persons with diverse gender identities or expressions as it pertains to the prevention of discrimination based on race, bullying, or cyberbullying.
 5. Needs of students with disabilities and students with autism spectrum disorder.

- C. The Superintendent of Schools shall work with the Office for a Safe and Respectful Learning Environment within the Nevada Department of Education to access available outreach and restorative disciplinary practices education and professional learning materials, if appropriate.

X. Disclosure, Public Reporting, and District Accountability

This policy and the portion of NAC Chapter 388 related to discrimination based on race, bullying, or cyberbullying will be distributed annually to all students enrolled in the District, their parents/guardians, and employees. It will also be made available upon request to any person, including organizations in the community having cooperative agreements with the District.
- B. As required by NRS 385.3483, the following statistics regarding discrimination based on race, bullying, or cyberbullying will be included in the District's annual report of accountability:

- C. Personally identifiable student information related to discrimination based on race, bullying, or cyberbullying must not be included in the annual report of accountability.
- D. No member of the Board of School Trustees, administrator, principal, educator, support professional, or other staff member may interfere with the reporting of statistics concerning violations of the discrimination based on race, bullying, or cyberbullying law.
- E. As required by NRS 388.1351, central services will act as the school principal or designee to generate and submit monthly statistical reports to region superintendents and the Equity and Diversity Education Department to make recommendations for intervention or professional learning to address discrimination based on race, bullying, or cyberbullying in schools based on the data. For each school, the report shall include the number of reported discrimination based on race, bullying, or cyberbullying incidents; the number of incidents determined to be discrimination based on race, bullying, or cyberbullying after an investigation is conducted; and the number of incidents determined not to be discrimination based on race, bullying, or cyberbullying after an investigation is conducted. The Education Services Division will submit a quarterly report with these statistics to the Nevada Department of Education, Office for a Safe and Respectful Learning Environment.

RULES OF CONDUCT FOR SCHOOL BUS RIDERS

RULES OF CONDUCT

The students on the bus are in the immediate supervision of the bus driver and are, thus, subject to the rules set by the Clark County School District Board of School Trustees and the State of Nevada. Any offense of these rules by a student is to be documented on a School Bus Incident Report to Parents issued by the bus driver concerning the disciplinary offense with copies distributed to the principal or designee, the parent/guardian, and the Clark County School District Transportation Office.

- Bus students must stand in an orderly manner at pickup points until the bus comes to a complete stop.
- Students must board the bus in a single file line and go directly to a seat.
- All students must remain seated while the bus is in motion. Students must remain seated until the bus has fully stopped, then enter the aisle and go directly to the front exit door. Students must exit through the front exit door after the bus has come to a complete stop. If a student must cross the road, walk forward ten (10) feet or more; wait for the driver’s signal, then cross when it is safe to do so.
- Any distracting action by a student that creates a safety hazard by demanding unnecessary attention of the driver may result in disciplinary action (loud talking, use of profanity, fighting, throwing objects, smoking, standing, eating, drinking, and/or damaging the bus or bus seats).

In conformance with the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*, the site administrator will address bus misconduct in the following manner:

1. Confer with the student, the parent/guardian, or appropriate transportation staff, as necessary, to resolve student conduct problems.
2. Designate students as ineligible for transportation services when warranted and notify the Clark County School District Transportation Department and the parent/guardian of the action taken.

STUDENT RIGHTS AND RESPONSIBILITIES

STUDENT RIGHTS AND RESPONSIBILITIES

It is the intent to allow students maximum freedom under law, commensurate with each school's responsibility for student health, safety, and welfare. The rights and responsibilities presented in this section reflect the need for providing students with greater opportunities to serve themselves and society. A goal of all public education is to have students become responsible adults in a free society.

This requires that students learn to be sensitive to the needs and rights of others and to be aware of the consequences of the actions of themselves and others. Students therefore have a responsibility to protect the rights of other students. Students must realize that every right implies a responsibility, and that they should conduct themselves appropriately. It is the student's responsibility to make appropriate choices on and off campus and report any safety concern to school staff.

Students enrolled in the Clark County School District have the responsibility to abide by the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*, the *Educational Involvement Accord*, and the *Nevada Code of Honor* as it is an obligation of schools to provide a safe and respectful learning environment. Within every school, the principal and staff have the responsibility and authority for maintaining an orderly educational process. School rules are necessary to place limitations on unacceptable behavior in school. They serve not only to restrict undesirable behavior, but also to teach proper behavior. Students are citizens of the greater Clark County School District community and represent Clark County schools at all times.

**PARENT/GUARDIAN RIGHTS AND
STUDENT SEARCH INFORMATION**

PARENT/GUARDIAN RIGHTS

It is the intent to provide opportunities for parents/guardians to participate in the education of their child(ren), under law, commensurate with each school's responsibility for student health, safety, and welfare. Within every school, the principal and staff have the responsibility and authority for maintaining an orderly, safe and respectful learning environment. The rights and responsibilities presented in this section reflect the need for providing parents/guardians with opportunities to participate in and advocate for the educational welfare of their child(ren) as mutually supportive and respectful partners in the education of their children.

As a parent/guardian, you have a right to be included in all aspects of your child's education through meaningful, respectful participation due to each member of the school community. You have the right to access your child's school records within the guidelines defined by the Family Education Rights and Privacy Act (FERPA). Parents/Guardians are informed in advance about school rules, including disciplinary rules and procedures, and possible behavior incident resolutions. Parents/Guardians can participate in local school organizations and volunteer activities as well as participate in decision-making processes affecting school policies and procedures.

As a parent/guardian of a Clark County School District student(s), it is your responsibility to work with school staff and review the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct, Educational Involvement Accord*, and the *Nevada Code of Honor* with your child(ren). Prepare your child(ren) for the understanding that they are responsible for their own behavior in school, at school sponsored activities, and on the way to and from school. Prepare your child(ren) to assume responsibility for their own behavior and regular compliance with attendance rules and procedures. It is essential to recognize that school staff have the right to enforce all policies, rules, and regulations of the Clark County School District.

STUDENT VICTIM(S) AND PARENT/GUARDIAN NOTIFICATION

Parents/Guardians of students who may be victims as a result of other students violating a code in the Behavior Incident Index should be contacted immediately or soon after the facts are identified in relationship to the potential impact to a student victim. Some parental collaboration with law enforcement will be necessary in certain instances; however, the Clark County School District administration recognizes that student victims and the parents/guardians must be made aware of information and facts that may directly impact the well-being of their child(ren). Communication with families must remain a priority as they are, in fact, our partners in educating the children of the Clark County School District.

STUDENT RIGHTS PERTAINING TO SEARCHES

What are the requirements for Notice of Student Searches?

- Regulation 5144 and the Student Safety Search Form from Infinite Campus provides an overview of this requirement.
- Reasonable Suspicion - Reasonable facts and inferences and/or information to show it is likely that a student is hiding evidence and the student has broken or is about to break school rules. A hunch does not equal reasonable suspicion.
- Must be reasonable at inception - Based on information, facts, or circumstances, which would lead a reasonable person to conclude that a search will expose evidence of the violation of a school rule based on:
 - Reliable witnesses
 - Specific information regarding contraband or location of contraband
 - Information being recent and credible
- Must be reasonable in scope - Based on age of the student, gender of the student, and the nature of the alleged infraction

What are the requirements for Notice of Student Questioning?

- Administration has the authority and responsibility to question students in order to maintain a safe, respectful, orderly, and positive educational environment. Parental/guardian consent is not required prior to questioning a student regarding violation associated with the *Clark County School District Pre-Kindergarten–12 Student Code of Conduct*.

STUDENT SAFETY SEARCH FORM

Searches of a student's person or possessions while at school must be reasonable. Reasonableness requires that the search be justified prior to its commencement and be related to the circumstance giving rise to the search. Absent extraordinary circumstances, a student's person and possessions may be subject to search on school property only if:

1. The student voluntarily consents to the search; or
2. Prior to a search there is an individualized, reasonable suspicion that the student is hiding evidence of wrongdoing; and
 - A. A search is necessary to maintain school discipline, order or safety, and to prevent the removal or destruction of evidence, and
 - B. The search is reasonable in scope and methods as related to the alleged wrongdoing and the age and sex of the student, and
 - C. The search is conducted in accordance with Regulation 5144; or
3. Appropriate law enforcement authorities conduct the search.

STEPS TO TAKE IN SEARCHING A STUDENT:

1. Must be conducted by a school administrator or designee in the presence of another school district employee as a witness.
2. Tell the witness in the presence of the student what you are looking for and why.
3. Ask the student for consent.
4. Make a reasonable effort to notify the parent/guardian before, or, as soon as possible, after any search of the student's person.
5. Complete written statement below.

UNDERSTANDING THE WARNING SIGNS OF VIOLENCE

UNDERSTANDING THE WARNING SIGNS OF VIOLENCE

The information listed below is to familiarize you with the warning signs of violence and some tips for prevention. This information should be used as a guideline only. The presence of one or more of these warning signs does not mean that a young person will exhibit violent behavior. It is important to keep in mind that there are many possible factors that could contribute to youth violence.

VIOLENCE WARNING SIGNS	TIPS FOR PREVENTING VIOLENCE
<ul style="list-style-type: none"> • Abusive language, especially aimed at an authority figure or friend • Bullying and intimidating • Continued failure to take responsibility for actions • Difficulty controlling anger • Engaging in racial or other ethnic conflict • Engaging in sexual harassment • Little or no remorse for actions • Retaliation • Previous aggressive behavior • Hitting or fighting • Suicidal plans, thoughts, or ideation • Threatening physical harm • Treatment of others as personal property • Vandalizing school property • Violent outbursts • Limited social interaction with peers 	<ul style="list-style-type: none"> • Teach students that reporting violence or threats of violence is important • Parents/guardians are encouraged to communicate with schools, especially when a child is experiencing problems • Work with school personnel to address behavior which may lead to violence • Talk to young people about violence in advance • Do not wait until the issue comes up because of a specific incident • When a violent incident occurs, discuss how it might have been prevented • Encourage students to get involved in school activities • Watch for any unusual behavior and report it to appropriate school personnel • Set expectations for appropriate student behavior and communicate consequences

**RESTORATIVE DISCIPLINARY PRACTICES:
ADMINISTRATIVE PROTOCOLS**

Restorative Disciplinary Practices

The Institute for Restorative Justice and Restorative Dialogue (2020) defines restorative discipline as a whole-school, relational approach to building school climate and addressing student behavior that fosters belonging over exclusion, social engagement over control, and meaningful accountability over punishment. According to Armour (2014), numerous studies attest to the effectiveness of school-based restorative practices to dramatically reduce suspensions, increase school attendance, improve academic achievement, lower student dropout rates, increase financial savings, and decrease racial disproportionality. When appropriate, restorative disciplinary practices focus on correcting harm and repairing the damage that has occurred. The goal is to place value on relationships and focus on repairing and restoring relationships that have been damaged. The victim and the offender are provided with opportunities to share how they were impacted and how they will resolve or repair the harm caused. For more severe infractions, victim and offender interactions may not occur or be facilitated.

Restorative Conference or Community Conference

Restorative conferences or community conferences are structured meetings that include the offender, the victim, and the community of care (i.e., family members and friends) when possible. The purpose of these conferences is to hold the offender accountable to reach a consensus on how to repair the damage. Restorative conferences involve a script that the facilitator follows to ask a series of open-ended questions of each participant in the conference. The script is provided to limit the role of the facilitator. The facilitator should avoid interfering in the discussion and the decisions made by the participants in the conference. When necessary, the facilitator may have to intervene to keep the conference on track. This process should result in a written agreement that outlines the responsibilities of each participant to maintain a respectful relationship and prevent repeated behavior. Restorative or community conferences engage each person impacted by the behavior in a process that allows all stakeholders to contribute to the conflict resolution process.

Family Group Conference

Family group conferences involve the student's family in the decision-making process. These meetings have a high level of family participation and may include the community of care. These conferences are conducted in the same manner as restorative or community conferences, but with an added component of "family alone time." Family alone time is when the facilitator leaves the room and the student with the support of the community of care establishes a plan together. Once the plan is drafted, the facilitator is called back into the room, and the family explains the plan. The facilitator may advise the family to adjust the plan if needed.

Circle Process

The circle process is a versatile restorative practice that should be used proactively (80% of the time) to develop relationships and build community or reactively (20 percent of the time), to respond to misconduct, conflicts, and problems. Through the circle process, social skills can be taught such as listening, respect, and problem-solving. The circle process requires chairs to be placed in a physical circle and the facilitator passes a talking piece that permits only the holder to speak. The piece is passed clockwise (sequential) so that all participants have an opportunity to talk and listen. The circle process involves several rounds in an orderly and reflective process. Facilitators should set clear topics and goals for the outcome of the circle process.

Mediation (including peer mediation)

Mediation is a structured approach to resolve conflict in which administrators address disputes by listening to concerns and negotiating a solution. Peer mediation is a youth leadership model that teaches students how to help other students resolve differences by utilizing conflict resolution practices and social skills.

Restorative Dialogue: *Using the Restorative Questions*

Restorative practices are based on the following:

RELATIONSHIPS – address the damage caused by behavior and acknowledge how people have been affected to mend and rebuild relationships.

RESPECT – developed through actively listening to each other to understand the impact of behavior on oneself and others.

RESPONSIBILITY – internalize the impact of the behavior, take ownership and hold each other accountable for the behavior.

REPAIR – repair the damage caused by the behavior and come up with strategies to make sure the behavior is not repeated.

REINTEGRATION – Put in place agreements, strategies, support, and follow-up meetings to monitor ongoing progress.

The basic questions for responding to challenging behavior are:

1. *What happened, and what were you thinking at the time of the incident?*
2. *What have you thought about since?*
3. *Who has been affected by what happened and how?*
4. *What about this has been the hardest for you?*
5. *What do you think needs to be done to make things as right as possible?*

These questions lay the foundation for and act as the building blocks for all forms of restorative processes that seek to discover the root causes of challenging behavior, determine impact, repair harm, and ultimately restore damaged relationships.

Restorative questions:

- Are non-blaming and open-ended
- Allow for storytelling and attentive listening
- Separate a person's behavior from their intrinsic worth as a person
- Allow for all people involved to identify their thoughts and feelings associated with particular actions
- Provide a forum for meaningful expression of emotions (affective statements)
- Focus on impact and how others (people and community) were affected by the action(s)
- Are an inclusive and collaborative approach to problem-solving, emphasizing finding solutions rather than assigning blame
- Hold people accountable
- Require people to take responsibility for their actions
- Attend to the needs of those harmed
- Resolve underlying issues that act as the root cause of challenging behavior

Conflict is natural and likely to occur when people with diverse opinions and experiences unite. When appropriate, restorative practices view conflict as an opportunity to foster meaningful learning experiences and strengthen relationships.

**CLARK COUNTY SCHOOL DISTRICT
POLICY 5114.1
DISCIPLINE: SUSPENSION PROCEDURES**

CLARK COUNTY SCHOOL DISTRICT REGULATION

R-5114.1

DISCIPLINE: SUSPENSION PROCEDURES

- I. Suspension is the temporary removal of a student from school for any of the applicable offenses outlined in the *Clark County School District K-12 Student Code of Conduct*. When circumstances permit, students who must be removed from a classroom or playground should remain at school to engage in restorative practices and participate in as much of the educational program as possible. The primary purpose of suspension is to provide the student, the student's parent/guardian, and the school the time needed for resolving a problem. The parent/guardian must be notified in writing of each suspension. Reasonable effort will be made to contact the parent/guardian regarding the impending suspension before the student leaves the school. Duration and conditions of suspensions are as follows:
 - A. Since the time and actions needed to resolve problems depend on individual circumstances, the duration of suspension shall in all cases be related to a course of action designed to resolve the problem. The duration shall be specified in advance only when known factors preclude immediate resolution. The student shall be readmitted as soon as the school has reasonable assurance that the problem has been resolved or significantly improved.
 - B. The school may impose appropriate requirements relating to parent/guardian contacts, the student's future behavior at a school, and school work to be done during suspension as outlined in District regulations.
 - C. A Notice of Suspension is generated by the principal, assistant principal, or student success coordinator when a student is being placed on suspension, including in cases of a more serious nature or when circumstances may warrant further action, such as a behavior school referral or an expulsion recommendation. The principal is the responsible administrator to review and approve the Notice of Suspension. Within three (3) school days of suspension, a conference with the student; parent/guardian; and principal, assistant principal, or student success coordinator is to be held. No general education student is to be placed on suspension for more than ten (10) school days before a decision or recommendation is made. If a recommendation for behavior school or expulsion is made, the suspension will remain in effect until the final disposition of the behavior school or expulsion recommendation. No student who is participating in a program of special education or receiving services pursuant to Section 504 of the Rehabilitation Act of 1973 shall be placed on suspension for more than five (5) school days per occurrence.

Students receiving, and students who have been identified as qualifying for, special education and/or 504 services shall be disciplined in accordance with the provisions of Part B of the Individuals with Disabilities Act (IDEA) and Section 504 of the Rehabilitation Act of 1973.

- D. In accordance with Regulation 5141.1, students on suspension are not allowed on a school campus or at any school sponsored activity for any reason without the express prior permission of the-principal.

When a student is placed on a suspension for any offense, the appropriate administrator will read the following statement to the student and will verify that act by making a notation on the Notice of Suspension:

“As the duly appointed representative of the owner of school district property, I hereby warn you that should you come on this property during the term of this suspension without the express prior permission of the principal, you will be trespassing upon this property as defined by the Nevada Revised Statutes (NRS) 207.200, and will be subject to arrest for a misdemeanor.”

The Education Services Division is responsible for developing and implementing procedures for student suspension and will specify the procedures in the *Clark County School District K-12 Student Code of Conduct* in accordance with Clark County School District Board of Trustees policy and NRS 392.467.

- A. The Education Services Division Hearing Panel, selected by the assistant superintendent, Education Services Division or designee, will consist of three (3) members as follows:
 - 1. A secondary education administrator;
 - 2. A secondary education professional licensed staff; and
 - 3. A secondary education support professional.
- B. The members of the Education Services Division Hearing Panel may not be selected from the school from which the student was recommended for expulsion.
- C. Clark County School District police officers may not serve as members of the Education Services Division Hearing Panel.
- D. The Education Services Division Hearing Panel will make the following determinations:
 - 1. What disciplinary offense, if any, has been committed by the student.
 - 2. If the student has committed a disciplinary offense, what is the appropriate consequence and educational placement.
 - 3. The Education Services Division Hearing Panel must consider the nature of the offense; the student's disciplinary history for one calendar year prior to the recommendation for expulsion; the student's academic record and academic concerns; as well as any district regulations, and state or federal laws.
 - 4. If the Education Services Division Hearing Panel determines that the student has committed the offense for which the student has been charged, the Education Services Division Hearing Panel may decide on:

- a. Permanent expulsion - Permanent expulsion means permanent removal of a student from a regular school campus and contemplates no trial enrollment except for alternative school placement.
 - b. Limited expulsion - Limited expulsion allows a student to return to a regular school campus, which may or may not be the campus from which the student was expelled, on a trial enrollment following a successful period of alternative school placement, except that no student who has been twice expelled for an offense for which a mandatory expulsion recommendation must be made in accordance with Clark County School District Regulation 5141.1 may be granted more than one (1) trial enrollment in Grades 6 through 8 and one (1) trial enrollment in Grades 9 through 12.
 - c. A modified plan for school placement.
5. If the disciplinary offense falls under NRS 392.466, mandatory expulsions, and the Education Services Division Hearing Panel determines that the student did commit the disciplinary offense, the Education Services Division Hearing Panel has the authority to modify the expulsion recommendation, if such modification is made in writing and the Education Services Division Hearing Panel determines that a restorative plan of action may be used successfully.
- E. If appropriate, the assistant superintendent, Education Services Division, may process an appeal directly to the Board of School Trustees Expulsion Review Board.
 - F. If the Education Services Division Hearing Panel upholds the decision to expel the student and the parent/guardian does not agree with the decision of the Education Services Division Hearing Panel, the parent/guardian may appeal the decision to the Board of School Trustees Expulsion Review Board.
 - G. An appeal to the Board of School Trustees Expulsion Review Board must be requested in writing and submitted to the assistant superintendent, Education Services Division, or designee no later than fourteen (14) days after receipt of the decision of the Education Services Division Hearing Panel.

IV. EXPULSION REVIEW BOARD

- A. A Trustee may not, however, serve as a member of the Board of School Trustees Expulsion Review Board to hear any appeal from a student's parent/guardian within the Board District represented by the Trustee.
- B. The Board of School Trustees Expulsion Review Board will meet as necessary.
- C. The identified pool of persons eligible to serve as members of the panel of the Board of School Trustees Expulsion Review Board will consist of former Trustees, retired educational administrators, retired school counselors, and retired school psychologists. A person selected to serve as a member of the Board of School Trustees Expulsion Review Board will serve a term of one (1) year as a member of the Board of School Trustees Expulsion Review Board.
- D. Two (2) members of the Board of School Trustees Expulsion Review Board will constitute a quorum. A quorum does not have to include a Trustee. A decision of the Board of School Trustees Expulsion Review Board shall be by majority vote and two (2) votes are required to constitute a majority.
- E. The Board of School Trustees Expulsion Review Board will conduct an evidentiary hearing at which both, a school administrator(s) and the student and parent/guardian, may present evidence, testimony, and argument related to the student's alleged misconduct and the appropriate discipline in view of all the circumstances, including any prior disciplinary intervention(s) by the school. The evidence and testimony may be directed to the incident itself and/or to the character of the student, including, for example, no more than three (3) other persons familiar with the character or background of the student. Such evidence may not include testimony or other evidence regarding the school disciplinary status of other students who may have been involved in the incident.
- F. The student may be represented by legal counsel at the Board of School Trustees Expulsion Review Board hearing, if the parent/guardian so desires, at no expense to the District. The school shall be represented by the Office of the General Counsel. The Board of School Trustees

Expulsion Review Board will be represented by counsel from the Office of the Clark County District Attorney.

- G. The Board of School Trustees Expulsion Review Board must make the following determinations:
 - 1. What disciplinary offense, if any, has been committed by the student; and
 - 2. If the student has committed a disciplinary offense, what is the appropriate consequence and educational placement considering the nature of the offense, the student's disciplinary history for one (1) calendar year prior to the date of the subject offense, as well as the student's overall academic record or any other academic concerns.
- H. The Board of School Trustees will be informed by the assistant superintendent, Education Services Division, or designee, of the decision of the Board of School Trustees Expulsion Review Board.
- I. The Board of School Trustees will not conduct a formal hearing regarding the decision of the Board of School Trustees Expulsion Review Board, having designated the Board of School Trustees Expulsion Review Board as the final level of due process for the review of an expulsion recommendation, including expulsion recommendations which result from conduct that is in violation of the Federal Gun-Free Schools Act of 1994. If the disciplinary offense falls under NRS 392.466, mandatory expulsions, and it is determined that the student did commit the disciplinary offense the Board of School Trustees Expulsion Review Board has the authority to modify the expulsion, if such modification is made in writing and the Board of School Trustees determines that a restorative plan of action may be used successfully.
- J. The decision of the Board of School Trustees Expulsion Review Board is final and binding.

DISCIPLINE PROCEDURES**

SPECIAL EDUCATION AND SECTION 504 DISCIPLINE PROCEDURES

The Clark County School District is obligated to provide a free appropriate public education (FAPE) to all eligible students with disabilities, including students who have been suspended or expelled, and it prohibits from applying its disciplinary policies in a manner that discriminates against students with disabilities.

Please refer to the Student Services Division for the *Special Education Procedures Manual* for the requirements for disciplinary action for students with a disability.

RE-ENGAGEMENT STRATEGIES

RE-ENGAGEMENT STRATEGIES

A student returning to school after a short-term suspension or other exclusionary disciplinary action may exhibit a range of emotions. The student may feel anger, betrayal, embarrassment, and a sense of distance. The student has missed academic instruction and the social dynamic associated with attending school. It is likely that peers are aware why the student has not been in school; the student's teacher and administrators have talked with parents/guardians who are most likely concerned, and now the student must anxiously return to face peers, teachers, and administrators. Though this situation is far from perfect, what happens next may affect the remainder of the school year for that particular student. This represents a critical moment for connection and problem solving.

Whether the result of a minor infraction or something more problematic, mistakes are how learning occurs. For some, this learning comes harder than it does for others; some mistakes are bigger. It is incumbent upon us to address and correct misbehaviors – and this may mean excluding a child from school.

There are few messages that an educator can send to a child as powerful as, “You can't be in my classroom right now.” When necessary, it can be a necessary tool to prevent and correct behaviors. However, the removal from school is just the beginning of the corrective process. What happens when a student returns to school is also a critical factor in the process.

Schools and their staff are key to this process and each school should create a system for re-engagement that makes sense for their school community. Schools can improve outcomes for students, make their campuses safer, and reduce the chances that a student will reoffend.

School leadership should encourage a team approach to student re-engagement. This team may include an administrator, counselor, social worker, transition specialist, or other professionals to help guide a successful re-engagement process.

Teams should focus on a process that ensures a smooth transition, appropriate placement, therapeutic support, multi-system collaboration, and one that develops a plan to monitor and evaluate progress. This process is key to establishing student-centered support systems for successful student re-engagement that include safety, support, care and connectedness, engagement and challenge, and peer social and emotional connections.

Parents/guardians will play a key role in successful re-engagement strategies as well. Parents/guardians should talk with their child(ren) and think together about the goals of returning to school. Reflect on how your child's behavior might have looked through the school's eyes. Create a list of suggestions for support and skills your child might need to prevent future problems. Reflect on the facts, as you know them and talk with your child about how the situation could have gone differently and what you expect when they return.

The goal of the re-engagement process is to support the student's ability to be successful in school when they return following a period of short-term or long-term exclusionary discipline.

The Clark County School District has a team approach that consists of administration, counseling support, social workers, transition specialists, if available, and other key professionals that can offer assistance to students. Re-engagement practices will assist students and ensure future discipline offenses are minimized.

AFTER-SCHOOL CARE PLAN

Jesus F. Jara, Ed.D., Superintendent

Dear Parent/Guardian:

Student safety is a top priority at the Clark County School District (CCSD), specifically the after-school care of our students. It is critical that you communicate with your school in regards to how your child will safely leave school each day.

CCSD understands that at times circumstances may prevent the timely pickup of a student. Therefore, it is critical that alternate arrangements have been made for after-school care. In case of an emergency and a student is not picked up at the end of the school day, school staff will make an effort to reach parents/guardians and emergency contacts to arrange for student pickup. In the event that a parent/guardian or emergency contact is not reached, the school will follow CCSD After-School Care process.

Please note, below is the outline of our after-school care process when a student is not picked up after-school.

- When a student is not picked up the first time, the student is sent to Safekey (unless there is an outstanding debt or no signed parent/guardian authorization). The parent is responsible for the cost of Safekey.
- When a student is not picked up the second time, the student is sent to Safekey (unless there is an outstanding debt or no signed parent/guardian authorization).
- When a student is not picked up the third time, the student is transported to the YMCA of Southern Nevada (YMCA), unless there is an outstanding debt. The parent/guardian is responsible for the cost of YMCA.
- In the event there is an outstanding debt at either Safekey or YMCA, the student may be transported to Child Haven/Child Protective Services.
- When a student is not picked up the fourth time, the student is transported directly to Child Haven/Child Protective Services. Anytime a student is transported to Child Haven, a Child Abuse/Neglect Report is filed.

CCSD has partnered with several community agencies that provide after-school care programs for students. CCSD encourages all parents to enroll their students in after-school care programs in case an emergency prevents the parent/guardian from picking up his or her child from school within several minutes after dismissal.

Although CCSD does not sponsor, endorse, or control any community programs, your school may help you with accessing information regarding after-school care programs such as Safekey and the YMCA. However, your school cannot register your child. Once again, CCSD highly recommends that you register your child for Safekey even if you pick him/her up every day in case of an emergency.

Please speak with an administrator at your child's school to learn more about after-school care option. It is also extremely important that parents/guardians update their contact information throughout the school year and return the After-School: Parent/Guardian Agreement and Authorization form as soon as possible.

Respectfully,

Dawna Alexander
Coordinator
Foster Care

I _____, have read the attached letter outlining the Clark County School District (CCSD) After-School Care Process guidelines. I understand that if my child is not picked up at the end of the school day, school staff will make an effort to contact me and/or someone listed on my child's emergency contact form to arrange for my child to be picked up from school. In the event that I or an emergency contact cannot be reached, I understand that the school will follow the CCSD After-School Care Process.

I also understand that CCSD does not sponsor, endorse, or control any community programs including Safekey or the YMCA of Southern Nevada (YMCA). I understand that it is required that I complete this authorization, to be used only as an emergency option, if my child is not picked up from school on time and no emergency contact can be reached, in order to avoid my child being transported to Child Haven.

As part of this After-School Care Process, for the safety of your child, certain information will need to be shared with Safekey or the YMCA, if applicable. I hereby authorize CCSD to release my child's registration information to Safekey or the YMCA.

I understand that I will be responsible for charges incurred and will pay Safekey and/or the YMCA, as applicable. I also hereby authorize the Safekey program and/or the YMCA to release my child's fee balance (if any) to CCSD for the purpose of determining whether my child may be taken to Safekey or the YMCA as part of the After-School Care Process.

THE NEVADA CODE OF HONOR

THE NEVADA CODE OF HONOR

Nevada Department of Education

There is a clear expectation that all students will perform academic tasks with honor and integrity, with the support of parents, staff, faculty, administration, and the community. The learning process requires students to think, process, organize and create their own ideas. Throughout this process, students gain knowledge, self-respect, and ownership in the work that they do. These qualities provide a solid foundation for life skills, impacting people positively throughout their lives. Cheating and plagiarism violate the fundamental learning process and compromise personal integrity and one's honor. Students demonstrate academic honesty and integrity by not cheating, plagiarizing or using information unethically in any way.

What is cheating?

Cheating or academic dishonesty can take many forms, but always involves the improper taking of information from and/or giving of information to another student, individual, or other source. Examples of cheating can include, but are not limited to:

- Taking or copying answers on an examination or any other assignment from another student or other source
- Giving answers on an examination or any other assignment to another student
- Copying assignments that are turned in as original work
- Collaborating on exams, assignments, papers, and/or projects without specific teacher permission
- Allowing others to do the research or writing for an assigned paper
- Using unauthorized electronic devices
- Falsifying data or lab results, including changing grades electronically

What is plagiarism?

Plagiarism is a common form of cheating or academic dishonesty in the school setting. It is representing another person's works or ideas as your own without giving credit to the proper source and submitting it for any purpose. Examples of plagiarism can include, but are not limited to:

- Submitting someone else's work, such as published sources in part or whole, as your own without giving credit to the source
- Turning in purchased papers or papers from the Internet written by someone else
- Representing another person's artistic or scholarly works such as musical compositions, computer programs, photographs, drawings, or paintings as your own
- Helping others plagiarize by giving them your work

All stakeholders have a responsibility in maintaining academic honesty. Educators must provide the tools and teach the concepts that afford students the knowledge to understand the characteristics of cheating and plagiarism. Parents must support their students in making good decisions relative to completing coursework assignments and taking exams. Students must produce work that is theirs alone, recognizing the importance of thinking for themselves and learning independently, when that is the nature of the assignment. Adhering to the Code of Honor for the purposes of academic honesty promotes an essential skill that goes beyond the school environment. Honesty and integrity are useful and valuable traits impacting one's life.
